

## **Housing Delivery Test: 2021 measurement**

### **Local Planning Authorities**

ONS Code	Area Name	Number of homes required			Total number of homes required	Number of homes delivered			Total number of homes delivered	Housing Delivery Test: 2021 measurement	Housing Delivery Test: 2021 consequence
		2018-19	2019-20	2020-21		2018-19	2019-20	2020-21			
E09000003	Barnet	2349	2164	1574	6087	2221	2022	2316	6559	108%	None

#### Notes:

Housing Delivery Test: 2021 consequences are concurrent (i.e. where the buffer applies, the action plan also applies)

The local authorities: Barrow-in-Furness, Isles of Scilly and Redditch has zero final housing requirement. Therefore they do not have a Housing Delivery Test: 2021 measurement.

All results have been calculated in line with the Housing Delivery Test: 2021 measurement technical note

Housing requirement and homes delivered figures have been rounded to the nearest one decimal place in this spreadsheet. Unrounded figures have been used to calculate the HDT 2021 measurement figure. Therefore the percentages shown may be different to a calculation using the number of homes required and the number of homes delivered in this table. These have been included for context only.

The final Housing Delivery Test 2021 measurement result has been rounded to the nearest 1%

Values for each authority in a joint plan being measured jointly refer to the whole joint plan area.

Recently reorganised local authorities have a choice for their Housing Delivery Test to be scored based on their predecessor authority boundaries or the new reorganised authority boundaries for the first 5 years of existence. More details are available in planning practice guidance: <https://www.gov.uk/guidance/housing-supply-and-delivery> and the Written Ministerial Statement: <https://questions-statements.parliament.uk/written-statements/detail/2021-09-06/hlws253>

For the recently reorganised local authorities, Bournemouth, Christchurch and Poole; and Dorset, the 2021 Housing Delivery Test has been published at the predecessor authority boundaries as the predecessor authorities East Dorset and Christchurch have a joint plan straddling the two new areas. This requirement cannot be disaggregated, and we have published HDT results at former boundaries. As a result, a separate data collection was provided by the local authorities to DLUHC, which disaggregated the net additional dwelling statistics for the 2020/21 year.
